

Zoomerang Survey Results

Paid parking has been shown to increase the turn-over of available downtown parking spaces and promote the use of public transportation. Revenues from paid parking provide a source for RFTA funding. However, some people are concerned that parking costs and parking enforcement drive away visitors and make our community less accessible. With new proposals before City Council to expand paid parking into neighborhoods (previously covered by a two-hour non-resident parking restriction) and to increase parking fees, ACRA is interested in finding out your opinions.

Thank you in advance for your time.

Expanded Paid Parking Survey
Response Status: 212 Completes
